

Don't miss out the opportunity to attend the 6th meeting on Single Cell Analysis of Microbial Cells.

Important dates:

- Early Registration deadline: **10th May 2015**
- Submission deadline for Oral Presentation: **24th April 2015**

[Register Now!](#)

Opportunities are still available to submit your abstract in the following streams:

- Flow Cytometry and Cell Sorting
- Bioinformatics for Single Cell Analyses
- Image analysis and microscopy (including live cell imaging)
- New Developments
- Applications

Plant Biotechnology: Green for Good III
15-18 June 2015. Olomouc - Czech Republic

22-24 April 2015

Plant Biotechnology: Green For Good III

15 - 18 June 2015
Olomouc, Czech Republic

Organised by the **Czech Republic RBO**, Centre of the Region Haná for Biotechnological and Agricultural Research, the **Plant Biotechnology: Green for Good III** will take place at the Faculty of Science, Palacký University in Olomouc, Czech Republic.

- Deadline for submission of abstracts for oral & poster presentations: **30th April 2015**

Society for General Microbiology announces new open access and open data journal, *Microbial Genomics*

Microbial Genomics is the first journal from the Society to publish with a mandatory open data policy, requiring authors to archive any data associated with their paper. The **EFB Institutional Member**, Society for General Microbiology, has partnered with the online data repository Figshare to make all data deposited with them accessible to researchers across the globe, via the published article. Of this decision, the Society's Product Manager, Parita Patel, said, "Data sharing encourages a collaborative approach through the visibility, transparency and reuse of research data to advance microbiology in the same way that the open access movement has." Submissions to Microbial Genomics are open now, with all open access fees waived during the launch period. The journal's first articles will be published in July 2015.

Asian Congress on Biotechnology 2015 (ACB2015)
organised by AFOB.

The Asian Congress on Biotechnology 2015 (ACB2015) will be held in Kuala Lumpur, capital city of Malaysia. This international congress themed, "Biotechnology and Bioeconomy for Sustainable Future", aims to provide a platform for scientists, academia and industry to present their current research findings in various biotechnological fields. The congress also serves as a platform for networking opportunities and knowledge sharing as it brings together researchers from around the world. Chaired by Prof. Dr. Mohd Ali Hassan and Prof. Dr. Suraini Abd-Aziz, the ACB2015 organising team hopes this congress will provide meaningful and remarkable experience for participants. Book your date and we look forward to meeting you during the event.

12th WORLD CONGRESS
OF CHINESE MEDICINE

24th, 25th and 26th September 2015

BARCELONA

The European Foundation of Traditional Chinese Medicine (MTC) organises the 12th World Congress of Chinese Medicine (WCCM 2015). This congress will be a benchmark in terms of the current situation and future prospects of the various medicines derived from ancient Chinese medicine. MTC have chosen the topic for this congress inviting the best specialists and institutions, not only from China but also from Japan (Kampo), Korea (Korean traditional medicine) and the rest of the world. To present from a perspective of integration, together with the iMTC (integration of the oriental medicines derived from ancient Chinese medicine and the Western medicine) the current state and future prospects, for the benefit of humankind.

BAC 2015

Promoted by FEbiotec - Spain.

The Spanish Federation of Biotechnologists organises BAC 2015, the biggest annual Biotechnology event in Spain. Main topics for this edition will be: Biotechnological Therapeutic and Diagnostic Strategies (with focus on Cancer), Bioenergy and Bioremediation, Biotechnological Food and Biofactories, Biomaterials and Computational Biology. Confirmed keynote speakers are Robert Huber, Chemistry Nobel Prize Laureate (1988); Luis Herrera Estrella, pioneer of genetic transformation in plants, and Tom Dodd, Policy Coordinator of Bioeconomy at the European Commission. Abstracts of BAC 2015 will be published in the New Biotechnology Journal. BAC 2015 will take place in Salamanca (Spain) on 8-10 July.
