Welcome to the SEBiot!

- The Spanish Society of Biotechnology (SEBiot) is a “Branch Office” of the European Federation of Biotechnology (EFB) since 2003
- The Spanish Society of Biotechnology has as mission the promotion and development of biotechnology in Spain, across all its branches and activities
Aims of SEBIOT:

• To promote and organize scientific meetings
• To facilitate the networking among biotechnologists and with other scientists and technologists
• To foster research in biotechnology and facilitate the dissemination of knowledge
• To channel collaboration activities with scientific entities, both public and private
• To boost the interchange with other countries, especially those belonging to the European Union
• To sponsor scientific publications

Sections:

• Applied Biocatalysis
• Environmental Biotechnology
• Biopharmaceutical and medical biotechnology
• Plant Biotechnology
• Bioinformatics
• Bioprocess Engineering
• Food Biotechnology
• Microbial Biotechnology
• Biotechnology and Society
• Young Biotechnologists
Activities of the SEBiot

- Organization of the National Congress of Biotechnology (BIOTEC)
- Organization of sectorial workshops, seminars and other events (e.g. Biocatalysis Workshops, others)
- Organization of a Master on Bioinformatics Applied to Personalized Medicine and Health, in collaboration with the ISCiii, CNIO and BCN (https://masterbioinformatica.com)
- Dissemination of a periodic newsletter (FUTURUM) to the associates
- Maintenance of a webpage (www.sebiot.org)
- Coordination of the blog “Advances in Biotechnology”, in collaboration with the Foundation Madri+d: http://www.madrimasd.org/blogs/avances-en-biotecnologia/
